

Build Out Line: U9 / U10

Required for all MSYSA tournaments beginning fall 2016

Broken down from US Soccer for the SCSWI Tournament:

- The build out line is used to promote playing the ball out of the back in an unpressured setting
- When the goalkeeper has the ball, either during play (from an opponent) or from a goal kick, the opposing team must move behind the build out line
- Once the opposing team is behind the build out line, the goalkeeper can pass, throw or roll the ball to a teammate (no punting)
- After the ball is put into play by the goalkeeper, the opposing team can cross the build out line and play resumes as normal
